

My Street, My Choice!

Protect Sonoma from **Cell Towers** being installed **15 to 100 feet from homes.**

Full-Power Verizon Cell Towers are coming to PG&E utility or city light poles on your street. AT&T, T-Mobile, Sprint or even Verizon **could come to the pole near your home, next.**

Safety: Cell towers on or near fire stations caused **brain abnormalities** in every firefighter examined. In Santa Rosa, peak RF microwave radiation of **170,000 $\mu\text{W}/\text{m}^2$** was metered at 100 feet from a cell-site. **1-10 $\mu\text{W}/\text{m}^2$** is all that is needed and is in Sonoma now.

Privacy: Cell towers this close to homes are bad because we lose control over the real estate. Once a Wireless Carrier grabs a pole, it **can add additional 4G and 5G equipment, increase the size and up the power output** — without any public review.

Property Values: homes near cell towers are **devalued 20-25%.**

What Can I Do?

1. **Come to important meetings:** Drop by **My Street, My Choice Sonoma Team** gatherings at the Sonoma Farmer's Market on the Square **every Tuesday** from **5:30 to 7:30 pm** (look for our tall, cell-site mock up). Attend the **Sonoma Planning Commission Meetings** on **Sept 23** and **Oct 11** at **6:00 pm** at 177 1st St. West. Bring signs to oppose the applications for the **first three of many Close Proximity Microwave Radiation Antennas (CPMRAs)**, aka Small Cells — *proposed to be 25 to 100 feet from homes.*
2. Click [Sonoma](#) on **mystreetmychoice.com** and then click the **green button** at the top to complete a web form that will enter your comments into the public record. Also, email lmdevincent@comcast.net for additional flyers to distribute in your neighborhood.
3. Email your complaints to ahollister@sonomacity.org and jreefe@sonomacity.org.
